EXPERIENCE

Full Stack Software Engineer & Co-Founder

Redsticker

Sep 2024 – Present

Toronto, ON

- Built and deployed a grooming platform using **Next.js, React, TypeScript, and Firestore**, adopted by **two Pet Valu stores** to manage **900+ appointments**.
- Developed customer booking flows, groomer portals, and manager calendars; implemented membership-, role-, and location-scoped server authorization with automated authorization-policy tests.
- Engineered scheduling APIs with **Firestore transactions**, groomer availability rules, service eligibility, and slot-conflict checks across customer and staff booking workflows.
- Integrated **Stripe deposits** with signature-verified webhooks, duplicate-booking safeguards, and idempotent refunds to handle payment retries and booking conflicts.
- Automated SMS and email appointment reminders using **Vercel Cron, Twilio, and Resend**, with SMS sends recorded for **700+ appointments**.
- Developed a paid-pickup marketplace with reservation-aware inventory and location-based discovery; implemented client/server caching with database fallback to reduce repeated Firestore reads.

Software Engineering Fellow

Headstarter

Jul 2024 – Sep 2024

New York, NY

- Built five AI applications in five weeks, including a customer-support assistant using **Next.js, OpenAI, and Pinecone** to retrieve answers from company knowledge bases.
- Collaborated with three fellows on a flashcard SaaS product, integrating OpenAI-generated study content and **Stripe** subscription payments.

Backend Software Engineer Intern

Midaflow

Jul 2023 – Dec 2023

Toronto, ON

- Developed modular **Node.js and Express.js** controllers for authentication and payment workflows.
- Implemented and tested **REST APIs with Postman**, validating endpoint behavior and third-party service integrations.
- Integrated **Mercoa and Airwallex APIs** for accounts payable automation, invoice processing, and international payments.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Java, SQL

Frontend: React, Next.js (App Router), Tailwind CSS, HTML, CSS

Backend & Data: Node.js, Express.js, REST APIs, Firebase / Firestore, MySQL, NextAuth

Tools & Integrations: Git, Postman, Vercel, Stripe, Twilio, Resend, OpenAI API

EDUCATION

Bachelor of Science in Computer Science, York University

2024
